

May's UDPL Rifle/Carbine Match Info –

The Second Annual UDPL Rifle/Carbine Match will be held at the FARM on **May 27th**.

All shooters need to **bring TWO 1-gallon milk jugs filled with water** - they will be used in the Back-40 stage. **If a shooter does not bring their water jugs, 40 seconds will be added to their score** (or at least they'll get the razzing of their life.) Perhaps some of you would be willing to **bring extra water jugs** for those who didn't get the message. After completing that stage, squads will be responsible for hauling their broken jugs to the dumpster. **(Please put them in the dumpster and not in any of the smaller garbage cans throughout the range.)**

Use of Chamber Safety Flags will be required for this match. If you do not have these, they will be available for purchase at the match during registration for \$1.00 each.

Stages: 7 (one of which will be Limited Vickers)

Round Count: 140 Minimum (bring extra)

There is no single string that requires more than 18 rounds, so even the .308 shooters should be OK.

Divisions:

IS = Iron Sights Only

OS = Optical Sights Only

O = Open –

For those who wish to change rifles and/or uppers during the course of the match. Of course an optic or more than one optic is allowed.

N = Non-High Power –

Includes pistol caliber and .22 LR rifle/carbines

Special Notes:

With only seven stages, we may have big squads, but the round counts are reasonable and things should go smoothly.

As we are using the Scrambler behind the Clubhouse and shooting towards the City Limits, for safety reasons, we will not be using the Runner and Wall areas to the north of the City Limits. After the general safety meeting, all vehicles will need to exit the upper parking lot and will not be allowed west of the Clubhouse for the duration of the match. However, if a vehicle is found there during the match, it will be considered an abandoned vehicle and all shooters will be obligated to pop a few rounds into the body and windshield as is done with all vehicles of that type.

Thanks,

John Lowe

3-Gun Match Director
