		7. Chuck Calder	9:09:45
		8. Robert Montgomery	10:00:36
		9. Jared Lamb	10:50:58

Match Information –

Scenario: After an intense solo gunfight against over 100 Islamic fundamentalists / black panthers you are down to your last rifle magazine and secondary weapon. You are on the run to a more secure location populated with numerous UDPL members while being pursued by the smelly and unkempt tango's who keep saying you look allot like their goat back home.

Divisions: .22 or Standard. If a .22 caliber firearm is used as either a rifle or pistol then the competitor is in the .22 division.

Scoring/Rounds: 6 steel rifle targets, 8 steel pistol targets, Limited Vickers Count 30 rifle 30 pistol max on person. Misses on steel will count plus 60 sec for each miss. Any deviation of the course will result in DQ. Any violation of the standard safety rules will result in a DQ.

Distance: .75-1mile

Start / Finish: At the Clubhouse.

Course of Fire:

- Start with pistol loaded, extra mags secured. Rifle unloaded at low ready (may be slung) rifle magazine or ammo secured. At the command you will proceed at a quick pace down the main road to the lower parking lot. Head out to the main gate. After touching the Global One sign turn around. Go back on the main road and head out to the Back Forty where you will see an orange cone. Run around the cone and come back down the road to the Gulch. At the Gulch you will step into the shooters box and then facing down range load your rifle. After loading you may engage the Two (2) close (approx 50 yds) steel targets from standing with at least four (4) rounds each. Then proceed to the carpet and go prone engaging the four (4) far (approx 100yds) steel targets with two (2) rounds each. After this is completed, clear your rifle for the Range Officer (RO) and proceed up the trail to the right of the road up to the upper parking lot. Proceed in a straight line to the clubhouse where you will rack your cleared rifle. Then proceed to the city limits. In the shooters box at the city limits you may draw your pistol and engage the eight (8) steel targets with two rounds each. When finished show the RO a clear pistol, pistol must be re-holstered before leaving shooters box. Then sprint back to the start/finish at the clubhouse.
- We will start competitors at 5-10 minute intervals (staged start). If you get to a shooting position and the competitor ahead of you is not finished unfortunately you must wait. We will do our best to avoid a bottleneck. However, you may pass slower shooters while running to get to a stage first (i.e. you may play through).
- Good luck, run fast, but not too fast to not shoot straight, and most important...be safe.
